What is Blogging ?

A blog is a discussion or informational website published on the World Wide Web consisting of discrete, often informal diary-style text entries. Posts are typically displayed in reverse chronological order, so that the most recent post appears first, at the top of the web page.

"If you want to be a writer, you must do two things above all- Read a lot and write a lot"

Why to Blog ?

Blogging enables you to reach the billions of people that use the Internet. Blogging can help

How to Start a Blog ? - by Ankit (July 17, 2021)

👍 2 likes [Comments](#)

First, it's time to pick a name and niche for your new blog.

The name of your blog is what readers will see first, so it should ideally represent either the general topics you'll be writing about—or it could be your own name, that of your business, a clever combination of words, or otherwise.

Your blog's niche is the general topic area that you'll be focusing your content around. Examples include topics like travel, food, fashion, lifestyle, technology, and otherwise. Incorporating a word or two that clearly signals what your content is about, within the name of your blog (like myBlog.com)—will be very helpful for your future blog readers.

Message

Dr. V.K. Paliwal (Officiating)

Dyal Singh College owes its origin to the extreme generosity and foresight of Sardar Dyal Singh Majithia, founder of 'The Tribune' and 'Punjab National Bank', who willed his vast wealth in 1895 for the setting up of an Education Trust for a truly secular college. Consequently, Dyal Singh College was established at Lahore in 1910.
